

CM 345 - Spring 2016
Safety-Lab- Debriefing

18 April 16

1. More guidance with error calculations earlier on in course for first few labs
2. For Viscosity lab, do not collect st. dev. in Google Form (*it's confusing to have 5 & St error*)
3. Look for exercise where we make error bigger and justify it - practice adjusting ϵ_s
4. SS in HE lab; more explicit, more lenient?
5. Station 4 steam trap issues; station 10 ~~cont~~ couldn't do full open, 410 Lab steam draw
6. Game/reward for turning data in on time
viscosity, H.E.

7. Google Calendar for department so professors
can see events from other classes - AICHE? OXE?

8. Lab Report due Wed. of Winter Carnival, YES
+ assign. due Wed. after Winter Carnival
Week 14 Good week for no lab in Spring
(very busy time)

9. Switch from 2 cred. to 3 cred.? potentially drop
control valve, dial it down
(Course is a lot of work)
dial back?
